

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Richard and Nanette Patrick
DOCKET NO.: 03-25384.001-R-1
PARCEL NO.: 29-01-212-025-0000

The parties of record before the Property Tax Appeal Board are Richard and Nanette Patrick, the appellants, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 36-year old, two-story masonry multi-family dwelling containing 2,480 square feet of living area with a crawl-space foundation and a two-car garage.

The appellants submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellants submitted a grid analysis detailing three suggested comparable properties. On the appellants' map, the comparables are located approximately 2.8 miles from the subject. In the appellants' grid analysis, most of the comparables' physical characteristics were not disclosed. Each dwelling has 5,940 square feet of living area, and their improvement assessments are \$3.22 per square foot. The subject property has an improvement assessment of \$4.21 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are located on the same block or one block from the subject. The comparables are two-story masonry multi-family dwellings that are 36 years old. One has a full, unfinished basement, and three do not have basements. Three comparables have garages, either two-car or two and one-

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	1,923
IMPR.:	\$	10,447
TOTAL:	\$	12,370

half car. The dwellings have living areas that range in size from 2,117 to 2,480 square feet, and their improvement assessments range from \$4.21 to \$4.49 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. Even though little is known about the age or physical characteristics of the appellants' comparables, this much seems certain: The appellants' comparables differed substantially in location and size from the subject. As a result, they received little weight in the Board's analysis. The board of review's comparables were very similar to the subject in location, age, and most physical characteristics. These comparables had improvement assessments of \$4.21 to \$4.49 per square foot and support the subject's improvement assessment of \$4.21 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
